WELCOME TO THE 2019 ALL IN THE MIND FESTIVAL

A really warm welcome to the All in the Mind Festival 2019. We are so excited to be presenting you with our biggest and best programme yet!

We have over 35 different performances this year, packed across one fantastic day, so we are certain that there is something for everyone. Experience an immersive psychological thriller using headphones and binaural sound to portray one family’s mental fragility. Join the hapless, but noble knight, Don Quixote on an adventure around the park in an attempt to confront monsters and put right what is wrong. Enjoy original rhymes and lyrical beats from some of the South’s leading performance poets and musicians. Be transported into a gardening safe-haven, a sensory experience to refresh, reflect and relax. Plus, lots more...

This year we are delighted to have joined Without Walls, a consortium of festivals and organisations dedicated to raising the profile of the UK outdoor arts sector, promoting artistic excellence and supporting innovative new work for the benefit of artists and audiences. We thank them for all of their support and guidance so far.

The festival was founded on the idea that the arts can open up conversation, celebrate diversity and individuality and encourage positive health and wellbeing. Try something new, and most importantly have fun!

ALI GILL
Executive Director

LEIGH JOHNSTONE
Artistic Director

“This festival was the most excellent arts-spree I’ve attended. I crammed in as much theatre, dance, poetry, stories, and music as I could. I left brimful and wanting more.”

DISABILITY ARTS ONLINE
THANK YOU!

The All in the Mind Festival is organised by Fluid Motion Theatre Company, a charitable organisation based in Basingstoke aimed at raising awareness of mental health and tackling stigma through the arts.

We gratefully receive investment and support from the following organisations and businesses. Without their generosity and support we simply wouldn’t be able to run the festival each year.

All in the Mind Festival is a partner of the Without Walls Creative Development Network, a group of festivals that Without Walls is providing mentorship and development support to in the context of helping to develop new outdoor arts programmes.

If your organisation would like to support future All in the Mind festivals please contact us at info@fluidmotiontheatre.com.
HELP US CREATE SOMETHING SPECIAL

We have an ambition to create a festival of national significance, a friendly, inspiring and stimulating arts event that just makes you feel good.

It is our vision that the All in the Mind Festival can become a celebration of the power the arts can have in encouraging positive mental health and wellbeing. We want to create a festival that attracts national and international artists who are creating high quality, thought provoking and innovative work. We want the festival to become a beacon of hope, openness and self-expression. We want everyone to go away feeling happy and empowered.

To achieve this vision, we need the support of audiences like you. The All in the Mind Festival is far from free to produce but we are committed to keeping it free for everyone to attend. As a charitable organisation Fluid Motion Theatre Company receive public investment and sponsorship to meet some of our costs but it is not enough and we need to raise a lot more to make the festival happen.

If you like the festival and what we do, please help by giving what you can.

Volunteers in festival t-shirts will be collecting throughout the day so please give generously!

‘It’s not you, it’s me’ is a brand-new piece of work by Canterbury Christ Church University undergraduate dance company, C5.

The piece has been created especially for the festival, and explores several stages of an abusive relationship, from both physical and mental health perspectives.

Dance Phaze are a Tadley based youth dance company passionate about raising awareness around mental health, and regularly create pieces to explore it. This year they have created four performances for the festival that all powerfully deal with topics such as depression, anxiety, identity and social media.

#nofilter is an explosive and entertaining dance piece exploring social media and mental health. Comedic, zesty and bold, #nofilter unpacks the bizarre ideals and perfectionism that has become norm on social media and in pop culture.

#nofilter explores how these pressures affect our mental health, changing the way we view ourselves and others.

In 2018 Fluid Motion worked with just over 700 children and young people. We use theatre as a means of helping to build confidence and self-esteem, develop resilience and increase understanding around mental health. One of our flagship educational programmes is the 1 in 10 Project.

WHAT IS THE 1 IN 10 PROJECT?
The 1 in 10 Project is a week long theatrical residency for secondary schools. It aims to provide high quality, focused, drama-based intervention for young people aged 11 - 16, to explore mental health topics, increase understanding and encourage positive mental wellbeing. Each year group creates a theatrical response to their chosen mental health topic under the guidance of a professional theatre director. This gives them the opportunity to express themselves, learn the facts and understand where to go for help.

AS A RESULT OF OUR PROJECT
- Students’ knowledge of mental health issues rose by an average of 24%
- Students’ understanding of where to go for support or advice increased by 13%
- Students’ ability to talk about mental health rose by an average of 25%

WHAT PEOPLE HAVE SAID
“This project reinforced the importance of the Performing Arts in explaining issues around mental health. Specifically the use of drama to engage students, enabling them to express their thoughts and feelings openly around mental health without feeling vulnerable. This was a stellar project one of the best that I have had the privilege to be involved with.” – Graham Wilson, Headteacher, Bitterne Park School
